INTRODUCTION

The History of Norwood Qatar L.L.C. in the country can be traced back to 2011, when Tadmur Holding welcomed our company as part of their multi-functional group. In the years that followed, Norwood Qatar L.L.C. developed to become one of Qatar's leading turnkey steel solutions provider.

At Norwood Qatar we provide tailor made solutions in terms of planning, design, manufacture and installation of bespoke steel solutions for activities including these: facades, data centers, controlled environments, large corporate work spaces, education sector, medical facilities, public transport terminals and airports.

The company produces bespoke modular, demountable and fully relocatable architectural steel solutions using its cutting- edge manufacturing facility in Qatar.

MISSION

VISION

**CORE
VALUES**

Mission - Provide our clients with bespoke tailor-made steel solutions that meet and exceed their expectations.

Vision - To build our reputation further with an innovative approach and ideas & to push the boundaries of traditional construction methodology.

Core Values - Communication, Integrity, Teamwork, Trust, Innovation, Growth & Sustainability.

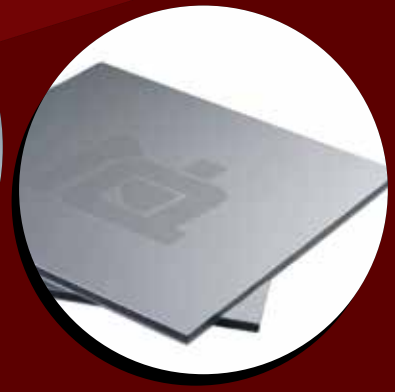

OUR EXPERTISE

Building on our expertise in the field and on our knowledge of the GCC market, we are committed to offering you exclusive tailor-made solutions that will guarantee you both attractive and durable products for your interior and exterior projects.

As a Norwood client, Your ideas and aspirations for your projects will be taken literally and turned into a reality.

Combining our extensive expertise with the latest technology in equipment, we strive to ensure precise planning and implementation.

ACHIEVING THE EXTRAORDINARY THROUGH FIRST-CLASS INTEGRATION OF FUNCTIONALITY AND DESIGN

Because we believe in the importance of the uniqueness of each project, we are developing integrated steel solutions together with our customers, so that we can guarantee a perfect result even for the most complicated projects. Norwood provides the perfect fusion of aesthetic demands with the respective functional requirements. Therefore, we precisely tailor the services that our customers require in order to guarantee the smooth achievement of the most demanding visions and projects. We are continuously looking forward for special requests where we are able to showcase our expertise.

OUR RESOURCES

In order to constantly meet our client's expectations, we have invested heavily in the latest manufacturing systems. Our state-of-the-art manufacturing facility is operating in Qatar and provides a wide array of products from system designs to special solutions. At Norwood, we are proud to deliver home grown products from our local facility.

Since we believe that the best of machines and the finest of materials cannot be delivered effectively without skilled and committed operators, we have worked on ensuring that all our employees are carefully selected, well informed, skilled and continuously trained. Our workforce is praised for its expertise in the field and its commitment to the company which results in greater loyalty and client satisfaction.

OUR FIELDS OF ACTIVITY

CORPORATE AND OFFICES

Our bespoke systems are ideally suited to architectural partitioning applications where visual appeal is important without compromising functionality. Our Modular and demountable bespoke partition systems can be used in architectural buildings, such as corporate offices, educational institutes, airports and retail establishments to provide the ideal solutions for space optimization and flexibility of design.

OUR FIELDS OF ACTIVITY

HEALTH CARE

Norwood's healthcare systems have been welcomed by leading healthcare providers, which are widely regarded as key products for building future-proof hospital facilities, where there is a need for an advanced demountable systems, with built in fire rating and which facilitates easy maintenance. Providing a full range of steel demountable, relocatable wall / ceiling systems, together with integrated door sets, Norwood designs healthcare systems to individual client specifications.

OUR FIELDS OF ACTIVITY

DATA CENTER

Norwood can design and manufacture your state of the art data center or server rooms. A data center or computer center is a facility used to house computer systems and associated components, such as telecommunications and storage systems. Norwood produce and install an innovative IT wall system necessary to allow the correct air flow percentage between halls, together with any relevant fire protection and integrated services that may be required.

OUR FIELDS OF ACTIVITY

CONTROLLED ENVIRONMENTS

Norwood is a leading provider of modular cleanrooms and controlled environments partition and ceiling systems, supplying products which meet even the most challenging specifications. Working with the leading names in the industry, Norwood offers a full cleanroom manufacture, installation service, with products designed bespoke to client needs.

OUR FIELDS OF ACTIVITY

EDUCATION

The challenge facing any educational building project recently is finding a solution that is efficient in terms of financial resources. In response to this challenge, Norwood have been utilizing and developing their existing systems including doors, walls, ceilings and fully integrated POD solutions.

OUR FIELDS OF ACTIVITY

TOWERS, AIRPORTS & PUBLIC TRANSPORT TERMINALS

Norwood design and manufacture the façade solutions for any type of structure. Norwood has been selected to design, manufacture and supply some of the largest High Profile structures.

Our Facade solutions carries out all work in strict accordance with, in-house project control procedures which encompass all aspects of project management including; Planning, Designing, Scheduling, Cost monitoring control, Technical performance, Productivity & Quality Control.

OUR PRODUCTS

We design and manufacture integrated products such as Partitions, Wall Linings, Atrium Walls, Shield Doors, Pod solve, Walk on Ceilings, Roof Cassettes, Facades and Bed Head Units. We can produce a solution for every steel based design requirement.

OUR CLIENTS AND PROJECTS

Norwood has successfully completed a number of the Highest profile projects for the major players with in the construction industry through out the GCC. & Europe.

ISO TEST CERTIFICATION

We are holder of the ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007 certification which are a testimony to our path towards quality and excellence.

WHERE OUR PRODUCTS SPEND THEIR TESTING TIME.

In our department for research and development, we individually adapt our products to suit our projects and test them for their properties with respect to building physics. In this way we guarantee that even unusual design meets the highest requirements regarding construction, structural stability, acoustics and fire protection. Our systems are certified for fire and acoustic performances as well as structural functions. That way we can respond to special requests quickly & professionally. It means that our customers always remain flexible and profit from the best Norwood quality at the same time.

We test our products for the length of fire resistance with fire tests, e.g. according to BS 476: Part 22: 1987 Clause 5.
